

# Crics International LLP

Merchant Exporter (India)

CONNECTING TEXSKYS

## Our Story

A decade ago, Mr. Pravin Sawant and Mr. Chientann Makwana embarked on a journey as domestic suppliers of raw cotton, driven by their shared vision of building a business rooted in quality and trust. Their unwavering commitment to sourcing the finest cotton directly from farms and ensuring excellence at every stage of processing soon earned them a reputation for reliability. Over time, their expertise and dedication propelled them to expand into the cotton fabric and eventually the ready-made garments industry. Now, as industry leaders, they have incorporated CRICS International LLP, a merchant exporter, to take their vision global. With end-to-end solutions from farm to fashion, they are setting new benchmarks in quality and innovation on the international stage.
